

DQ tutorial hands-on

Xiaozhi, Bai

16/10/2024

Analysis environments

- (1) `/cvmfs/alice.cern.ch/bin/alienv` enter `VO_ALICE@O2Physics::daily-20241008-0200-1`
- (2) `alien.py` (connect to CCDB)

All materials can be loaded from here:

<https://cernbox.cern.ch/s/ydqrTuNpv7ndkKG> [passwd:jpsi2ee2024]

How to run the central skimmed data locally

Two options:

```
cd O2-tutorial-DQPWG-midy-2410/analysis-data-CentralSkimmed  
alien.py  
exit
```

Option 1:

```
./run_TableMaker.sh  
  
./run_TableReader.sh
```

Option 2:

```
./run_TableMakerReader.sh
```

How to run the PWGDQ reduced data locally

PWGDQ reduced data produced by the table maker and pp filters

```
cd O2-tutorial-DQPWG-midy-2410/analysis-data-PWGDQReduced  
alien.py  
exit
```

./runTableReader.sh

How to run the PWGDQ MC locally

To run the MC, just type:

```
./runMC.sh
```

The results will be stored in AnalysisResults.root

How to run the analysis in the Hyperloop

Thanks
